Ok ...it could be a homeless shelter once it is sanitized.

Hi Stuart,

I called Republic again and put in the request with more of an ultimatum that if it's not reclaimed, we'll need to have it removed. They gave me early next week as a timeline. I like your "used large dumpster for the taking" idea...sounds like a Craigslist ad. Rick and I are looking into alternative solutions in case they don't come through again and will be in touch. Please keep us posted.

Thanks,

The dumpster was emptied sometime yesterday, Friday. It is still in the public parking lot sitting there empty. Do you know anyone that wants a dumpster? It is not locked and will begin being used again by folks walking through the lot. Used Large Blue Dumpster available for the taking...If Republic doesn't want it any idea how to get rid of it?

Hi,

I called Republic's customer service line and spoke with Lilly. Since we are a large customer, they said they're sending out a driver this week on Thursday. Let me know if any further follow up is needed.

Thanks!

Dear Laurie,

This container is behind the future studios in North Fig, in the parking lot. It has been sitting there for days.

Apparently it is owned by Republic and they are no longer the franchise company for the district. I am told they have been called to come and take it away forever, but no response.

I offered to see what we could do because we probably have a relationship with Republic in other districts and maybe they would respond to us if we called.

Molly or Grace might have a contact number for you.

Can you give it a try?

Thanks

Rick
